6 Gear & Wear to Give & Receive

10 The Dreaded "S" Word

Super Oversized JumboMax Grips

The USGA conforming, JumboMax Grip, with its patented design and larger diameter, provides a more secure finger-palm grip which makes for a tension-free connection to the club. This Finger-Palm Grip Technology promotes relaxed grip pressure, more consistent squaring of the clubface, and a more fluid and powerful swing. Golf instructors universally agree that the surest way to ruin a good golf swing is by gripping the club too tightly, or by increasing grip pressure during the swing, which prevents the club from releasing properly at impact. The larger diameter and unique design of the JumboMax Grips instantly gives you a more secure hold on the club, so you don't feel the need to squeeze it too tightly.

Available at
www.JumboMax.com

RIFE's Vault.001 Series ICONIC Putter

The new Vault.001 Series ICONIC putter features RIFE's patented RollGroove Technology Face. The grooves are designed to gently press into the cover of the ball and grip and lift it into an instant forward roll that gets it on line and headed towards the cup quicker than any other putter in the industry. RIFE is widely known as the No. 1 Putter on the Champions Tour. This classic blade design features an offset plumbers neck and a pure sight line. The ICONIC has already won several times on Tour and is sure to help you hole more putts.

Available at golf retailers nationwide.

Nexbelt — "The Belt With No Holes"

Finally a belt that's as advanced as the golf equipment you use. Nexbelt's new Go In Golf Series of belts feature a unique hidden ratcheting system that allows you to adjust the belt in one-quarter-inch increments — unlike the traditional belt (with holes) that only allows for one-inch adjustments. This guarantees a perfect fit regardless of slight changes in your waist size from day to day. Flip down the buckle and a hidden ball marker is revealed for ease of use on the green! New styles for the holidays include carbonite, grey, orange and canvas series.

Available at www.Nexbelt.com
starting at \$39.99

DUO GOLF CART — Bag + Cart In-One

The revolutionary Duo Cart is an all-in-one pushcart and golf bag combination that is extremely compact, so it fits easily in the trunk of your car, and takes just seconds to set up. With a turn of a handle, the hydraulic-assisted frame has your bag locked in place and ready to go. Four wheels provide a low center of gravity and outstanding stability on even the roughest terrain. Features 14 full-length dividers that minimize club rattling. The bag has a plethora of storage pockets for balls, tees, raingear, and other items. Best of all, its "riding cart friendly" front and rear wheels can be removed from the frame in just seconds and it can be converted into a cart bag, which fits on all standard electric or gas carts, should you decide to ride instead of walk!

Order online at www.DuoGolfCart.com;
\$299.95.
